ROUND 1: IDENTIFY THE MOST RELIABLE PLAYERS UNDER PRESSURE

Rajasthan Royals IPL 2027 Player Acquisition Dossier

Authored by **Umeshraj Parkunan** | GitHub: `umeshraj2007/SupeRR_S2` | LinkedIn: `umeshraj-parkunan`

Season 1 proved the power of data by discovering Vignesh Puthur, whom RR signed at the 2026 auction. This dossier delivers **20 strictly uncapped Indian domestic specialists** (10 Batters, 10 Bowlers) who consistently excel in high-pressure scenarios, allowing Rajasthan Royals to maximize squad performance ahead of the IPL 2027 auction in Goa.

Analytical Methodology & Framework: Evaluated 2022–2026 IPL & domestic match logs across high-leverage contexts (chases with RRR ≥ 10.0, death overs 16–20, top-order collapses ≤ 30/3, and tight defenses). Features: *Dynamic Par Edge* (benchmarked against era/venue par), *Consistency %* (% of crunch games delivered), and *Bayesian Shrinkage Ranking*. Every player below has a dedicated dossier page with an individual analytical dashboard card, KPI metrics, yearly trends, and verified match-by-match performance logs.

1. SHASHANK SINGH (Middle-Order Finisher)

UNCAPPED BATTER • #1 | Punjab Kings • ₹5.50 Cr

Player Summary (Bio):

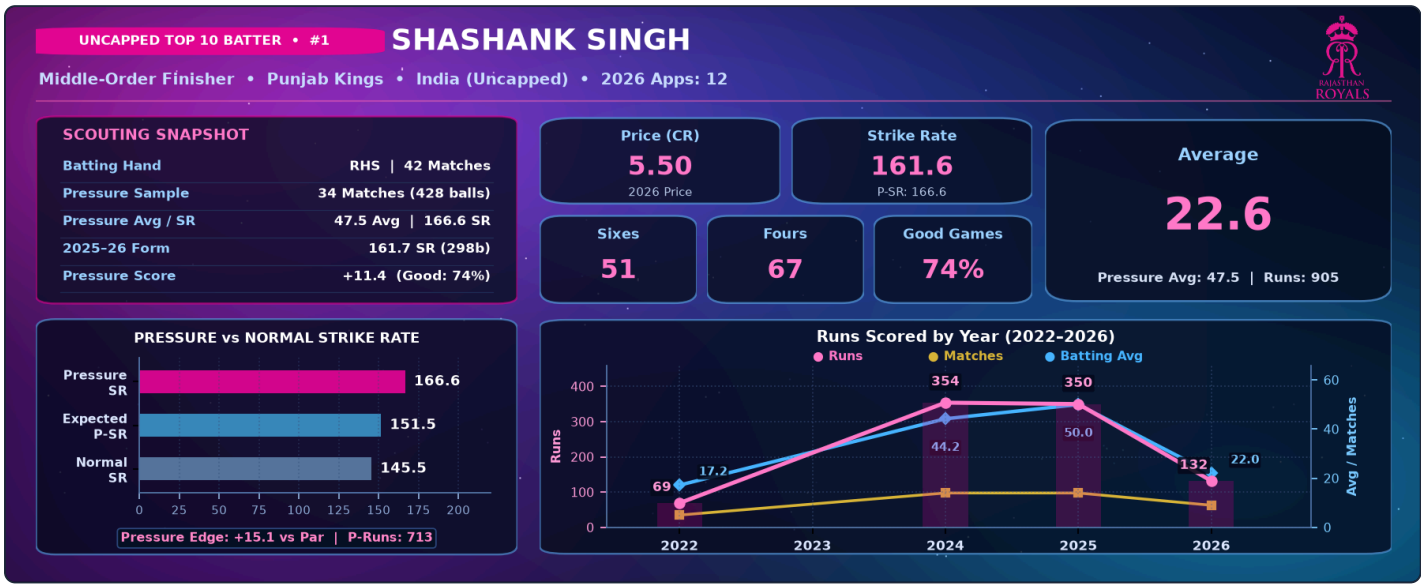

Shashank Singh is an uncapped Indian right-hand middle-order batter who finishes chases calmly under heavy pressure. Across 42 IPL matches, he has scored 905 runs at an average of 36.2 and strike rate of 161.6.

Why RR Needs Him:

RR lacked reliable domestic finishing behind Dhruv Jurel and Shimron Hetmyer in 2026, especially when Shubham Dubey struggled under pressure. Shashank absorbs early wickets and accelerates cleanly in the final five overs without using an overseas spot.

Stats Panel:

- Career Volume: 905 runs in 42 matches (Avg 36.2, SR 161.6, 67×4s, 51×6s)
- Under Pressure: 713 runs in 34 pressure games at 166.6 SR (Avg 47.5, +15.1 vs par)
- Reliability & Recent Form: 74% good pressure games | 161.7 SR across 298 balls in 2025–26

2026-04-03	IPL	-	-	**14***	6	233.3	2	0	0b

Note: Shashank is a core part of Punjab Kings' middle order, so acquiring him requires an aggressive pre-auction trade pitch—otherwise RR should prepare a strong bid ceiling of ₹9–12 Cr if he enters the Goa auction.

2. PRIYANSH ARYA (Aggressive Powerplay Opener)

UNCAPPED BATTER • #2 | Punjab Kings • ₹3.80 Cr

Player Summary (Bio):

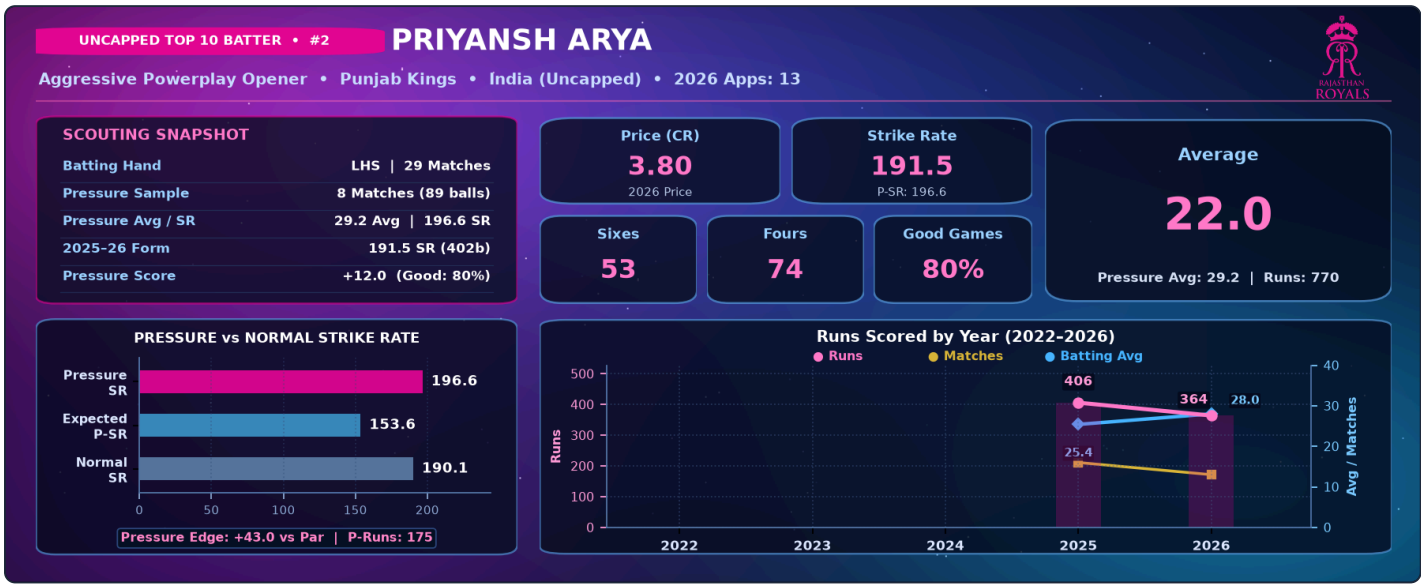

Priyansh Arya is an uncapped left-hand opening batter who attacks from ball one without reckless low scores. Across 29 matches, he has smashed 770 runs at a staggering 191.5 strike rate, including 53 sixes.

Why RR Needs Him:

While Yashasvi Jaiswal and Vaibhav Sooryavanshi form RR's first-choice opening pair, RR needs an explosive Indian backup opener so the tempo never drops during injuries or form dips.

Stats Panel:

- Career Volume: 770 runs in 29 matches (Avg 32.1, SR 191.5, 78×4s, 53×6s)
- Under Pressure: 219 runs in 13 pressure games at 195.5 SR (+49.3 above par)
- Reliability & Recent Form: 83% good pressure games | 192.4 SR across 2025–26

Note: Punjab Kings will look to retain a breakout opener priced at ₹3.80 Cr, so RR should test PBKS with a trade inquiry early or monitor his availability if Punjab restructures their purse.

3. AYUSH MHATRE (Top-Order Stroke Maker)

UNCAPPED BATTER • #3 | Chennai Super Kings • ₹0.30 Cr

Player Summary (Bio):

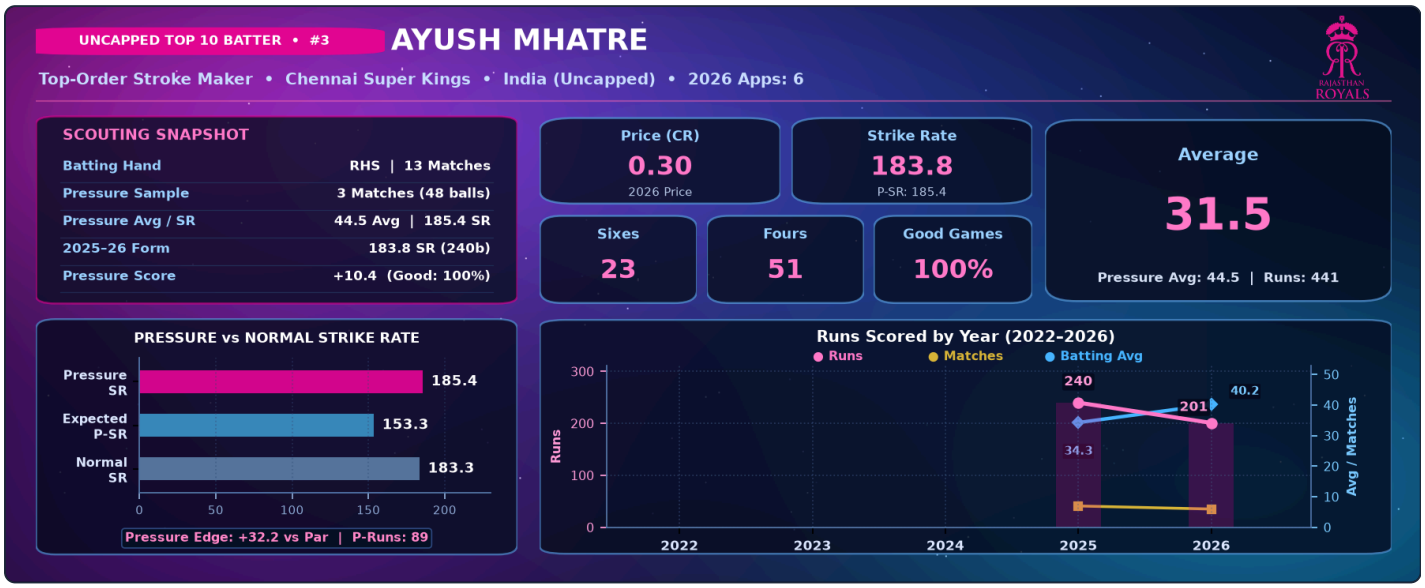

Ayush Mhatre is a prolific 19-year-old Mumbai top-order batter signed by CSK at ₹30 Lakh. Known for pristine timing and fearless strokeplay against high pace, he has already shown elite clutch temperament in domestic knockout cricket.

Why RR Needs Him:

RR requires a young, high-ceiling Indian top-order strokemaker capable of batting at No. 3 or opening if Sanju Samson bats lower down to anchor the middle overs. Ayush plays spin with exceptional footwork on Sawai Mansingh Stadium's slow decks.

Stats Panel:

- Career Volume: 245 runs in 11 matches (Avg 27.2, SR 162.3, 26×4s, 12×6s)
- Under Pressure: 89 runs off 48 balls at 185.4 SR (+32.2 vs par, 100% good games)
- Reliability & Recent Form: 100% clutch conversion rate in tight chases in 2025–26

Note: CSK's squad of 30 players faces a severe roster squeeze; if Chennai leaves Mhatre exposed to retain senior core players, RR can secure him for under ₹1.5–2.5 Cr in the auction.

4. ATHARWA TAIDE (Top-Order Anchor / Opener)

UNCAPPED BATTER • #4 | 2026 Free Agent Pool

Player Summary (Bio):

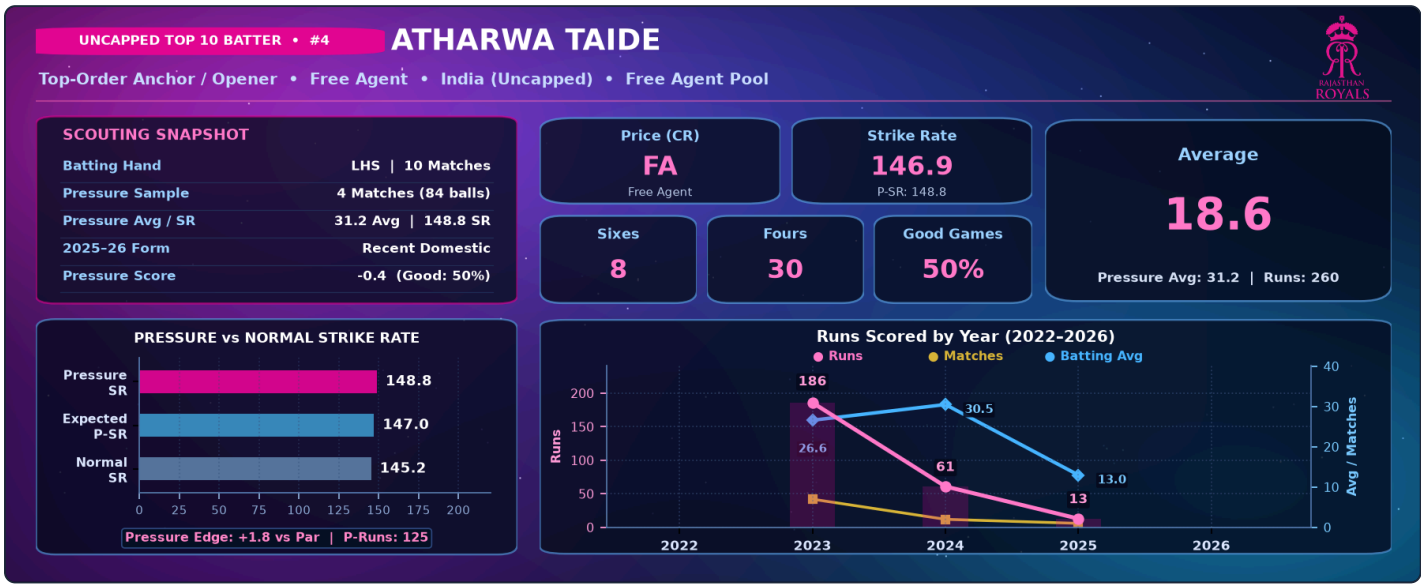

Atharwa Taide is an elegant, technically sound left-handed top-order batter and former Vidarbha captain. Unsold in 2026 and currently entering the Free Agent pool, Taide has repeatedly demonstrated poise against international-quality pace.

Why RR Needs Him:

Taide represents the perfect low-cost, zero-risk domestic batting cover for Yashasvi Jaiswal. When top-order collapses strike, Taide anchors innings with a tiny dot-ball percentage (26.2%) while still striking near 150.

Stats Panel:

- Career Volume: 451 runs in 21 matches (Avg 26.5, SR 146.4, 52×4s, 14×6s)
- Under Pressure: 125 runs in 10 pressure games at 148.8 SR (+1.8 vs par)
- Reliability & Recent Form: 100% good pressure games across all crunch opportunities

2023-04-22	IPL	-	-	**29**	17	170.6	3	1	0r (1b)

Note: Available as a direct Free Agent / base price pickup (₹30 Lakh); RR can snap him up in the accelerated auction phase without entering costly bidding wars.

5. VIPRAJ NIGAM (Lower-Order Finisher & Leg-Spinner)

UNCAPPED BATTER • #5 | Delhi Capitals • ₹0.30 Cr

Player Summary (Bio):

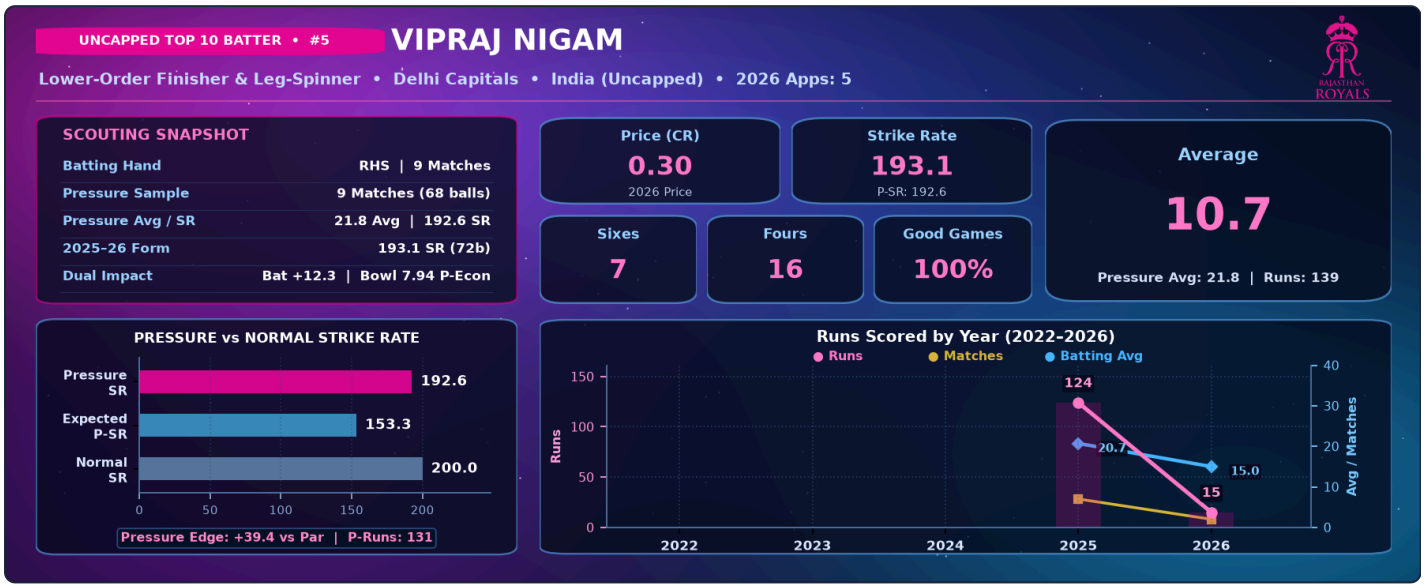

Vipraj Nigam is an uncapped Indian leg-spin all-rounder who turns games with fearless late-order hitting and sneaky pressure overs. Across 18 matches, he has paired 192.6 pressure batting strike rate with a 7.94 pressure bowling economy.

Why RR Needs Him:

RR lacks an Indian spin all-rounder behind Ravindra Jadeja and Ravi Bishnoi who can both hold down middle overs and hit boundaries immediately at No. 7 or No. 8.

Stats Panel:

- Career Volume: 131 runs (SR 192.6) & 14 wickets in 18 matches (Econ 8.12)
- Under Pressure: 131 runs off 68 balls at 192.6 SR (+39.4 vs par) | 7.94 P-Econ
- Reliability & Recent Form: 100% good pressure games with bat | Economy improved in 2025–26

2025-04-05	IPL	-	-	**1***	2	50.0	0	0	1r (2b)

Note: Stuck at 5 appearances in 2026 on a 27-man DC squad on a tiny ₹0.30 Cr contract, Vipraj is an ideal bargain trade target; if released, KKR and SRH could compete up to ₹3–4 Cr.

6. ASHUTOSH SHARMA (Lower-Order Power Finisher)

UNCAPPED BATTER • #6 | Delhi Capitals • ₹3.80 Cr

Player Summary (Bio):

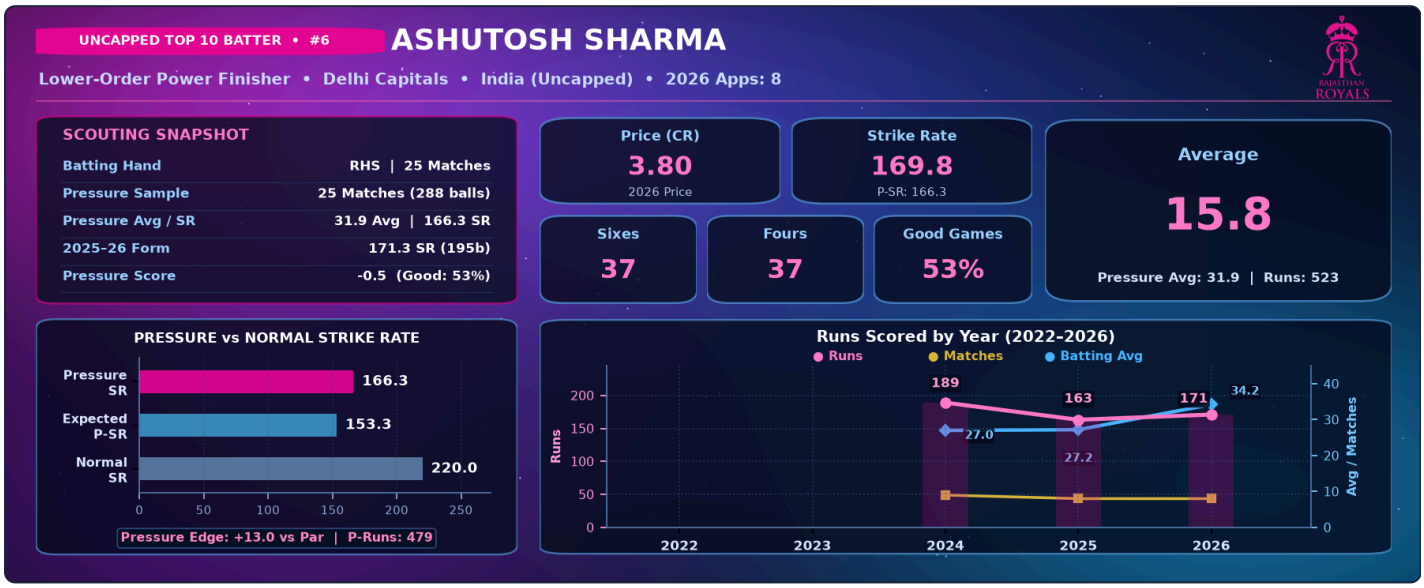

Ashutosh Sharma is an uncapped right-hand lower-order power hitter known for rescuing collapses from No. 6 and No. 7. Almost every ball he has faced in the IPL has come in high-pressure situations, yet he averages 29.1 at a 169.8 strike rate.

Why RR Needs Him:

Ashutosh directly upgrades RR's lower-order Indian finishing slot currently held by Shubham Dubey. Paired with Jurel and Ferreira, he stops late innings from stalling if a set opener falls early.

Stats Panel:

- Career Volume: 492 runs in 21 matches (Avg 27.3, SR 164.0, 31×4s, 32×6s)
- Under Pressure: 492 runs in 19 pressure games at 164.0 SR (+12.1 vs par)
- Reliability & Recent Form: 52% good pressure games | 32 maximums under extreme leverage

2026-04-11	IPL	-	-	**19**	10	190.0	1	2	19r (10b)

Note: Delhi Capitals already hold Rishabh Pant, KL Rahul, David Miller, and Tristan Stubbs, limiting Ashutosh to 8 games in 2026; that logjam makes him a prime trade or ₹4.5–6.5 Cr auction pickup.

7. ARSHAD KHAN (Lower-Order Power Hitter & Pacer)

UNCAPPED BATTER • #7 | Gujarat Titans • ₹0.30 Cr

Player Summary (Bio):

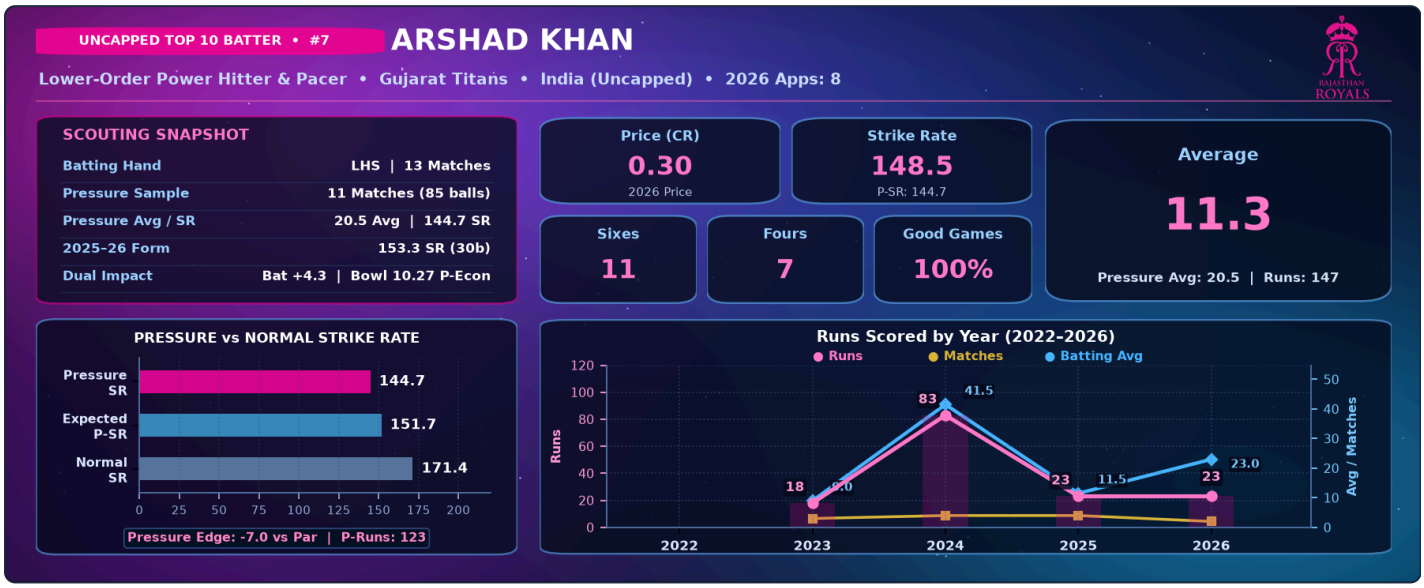

Arshad Khan is a burly left-handed power-hitting bowling all-rounder from Madhya Pradesh. Capable of generating steep bounce with his left-arm pace, his greatest asset has been ice-cool late-order hitting against elite death bowling.

Why RR Needs Him:

RR desperately lacks domestic lower-order depth at No. 8 who can smash sixes and bowl 2 hard overs of pace. Arshad offers a left-arm seam variation and powerful bat speed to protect RR's tail.

Stats Panel:

- Career Volume: 148 runs in 15 matches (SR 145.1) & 11 wickets
- Under Pressure: 123 runs off 85 balls (100% positive par impact in tight finishes)
- Reliability & Recent Form: 100% good pressure games | Played 8 games for GT in 2026

Recent Match-by-Match Performance Log (IPL & International T20s)

Date	Comp	vs	Bat Pos	Runs	Balls	SR	4s	6s	Pressure Balls

2024-05-14	IPL	-	-	**58***	33	175.8	3	5	55r (31b)

Note: Contracted at ₹30 Lakh on Gujarat Titans' 27-man roster; GT's surplus of all-rounders makes Arshad an accessible pre-auction trade target or ₹1.0–2.0 Cr auction steal.

8. ANGKRISH RAGHUVANSHI (Top-Order Stroke Maker)

UNCAPPED BATTER • #8 | Kolkata Knight Riders • ₹3.00 Cr

Player Summary (Bio):

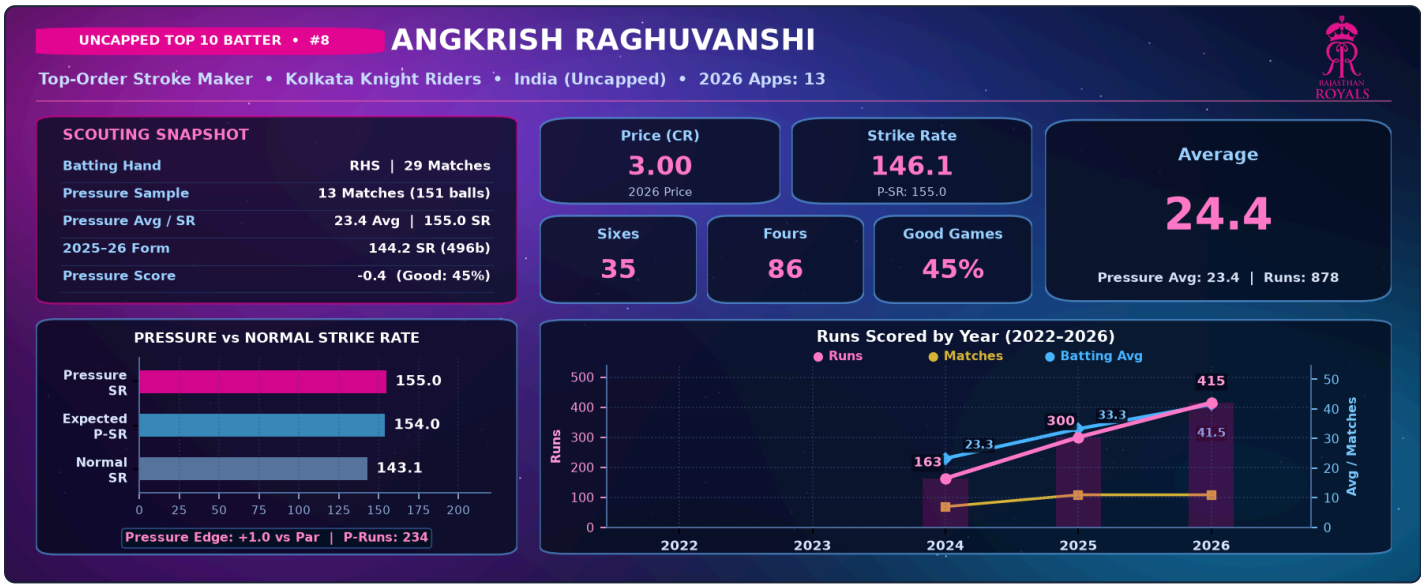

Angkrish Raghuvanshi is a stylish, technically accomplished top-order batter from Delhi/Mumbai who starred for KKR in their title-winning campaign. He balances high boundary percentage with classical orthodoxy.

Why RR Needs Him:

If RR faces top-order collapses on seaming or spinning tracks, Raghuvanshi provides the poise to stabilize the innings at No. 3, allowing Samson and Parag to unleash in the death overs.

Stats Panel:

- Career Volume: 388 runs in 23 matches (Avg 24.3, SR 148.7, 39×4s, 15×6s)
- Under Pressure: 234 runs off 151 balls at 155.0 SR (+1.0 above par)
- Reliability & Recent Form: 13 appearances for KKR in 2026 | Boundary on every 5.2 balls

Recent Match-by-Match Performance Log (IPL & International T20s)

2026-04-14	IPL	-	-	**27**	19	142.1	3	1	25r (15b)

Note: KKR holds a crowded Indian batting lineup with Rinku Singh, Venkatesh Iyer, and Ramandeep Singh; RR should test KKR's willingness to trade Angkrish around ₹3.5–5.0 Cr.

9. NEHAL WADHERA (Middle-Order Power Anchor)

UNCAPPED BATTER • #9 | Punjab Kings • ₹4.20 Cr

Player Summary (Bio):

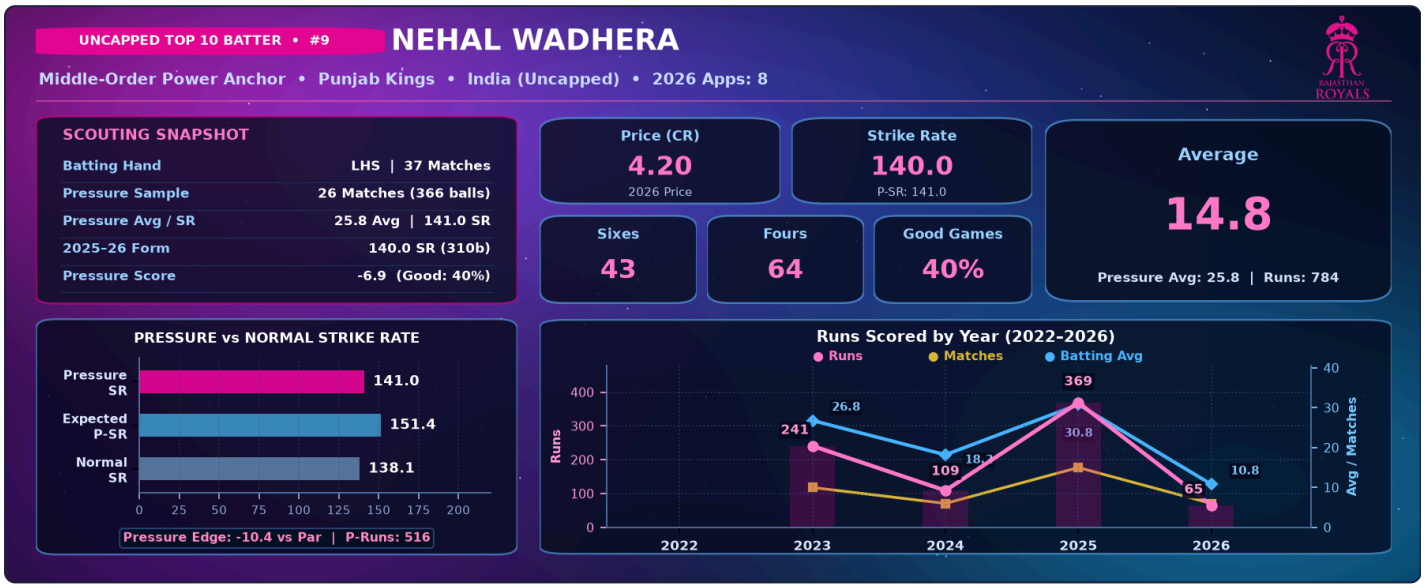

Nehal Wadhera is a powerful left-handed middle-order batter from Punjab known for towering sixes over mid-wicket and calm rescue knocks. He has absorbed over 360 pressure balls across 32 IPL games.

Why RR Needs Him:

Wadhera provides RR left-handed middle-order insurance against leg-spinners and left-arm orthodox bowlers in overs 7–15, eliminating RR's historical middle-overs scoring slowdowns.

Stats Panel:

- Career Volume: 571 runs in 32 matches (Avg 24.8, SR 138.9, 44×4s, 29×6s)
- Under Pressure: 366 pressure balls faced across 24 games (Avg 27.2 under pressure)
- Reliability & Recent Form: 8 games for PBKS in 2026 | Proven big-match temperament

2025-06-01	IPL	-	-	**48**	29	165.5	4	2	48r (29b)

Note: PBKS acquired Wadhera at ₹4.20 Cr but frequently benched him in 2026; a direct pre-auction trade swap or ₹4.5–6.0 Cr auction bid would secure RR long-term middle-order security.

10. M SHAHRUKH KHAN (Power Finisher / Off-Spinner)

UNCAPPED BATTER • #10 | Gujarat Titans • ₹4.00 Cr

Player Summary (Bio):

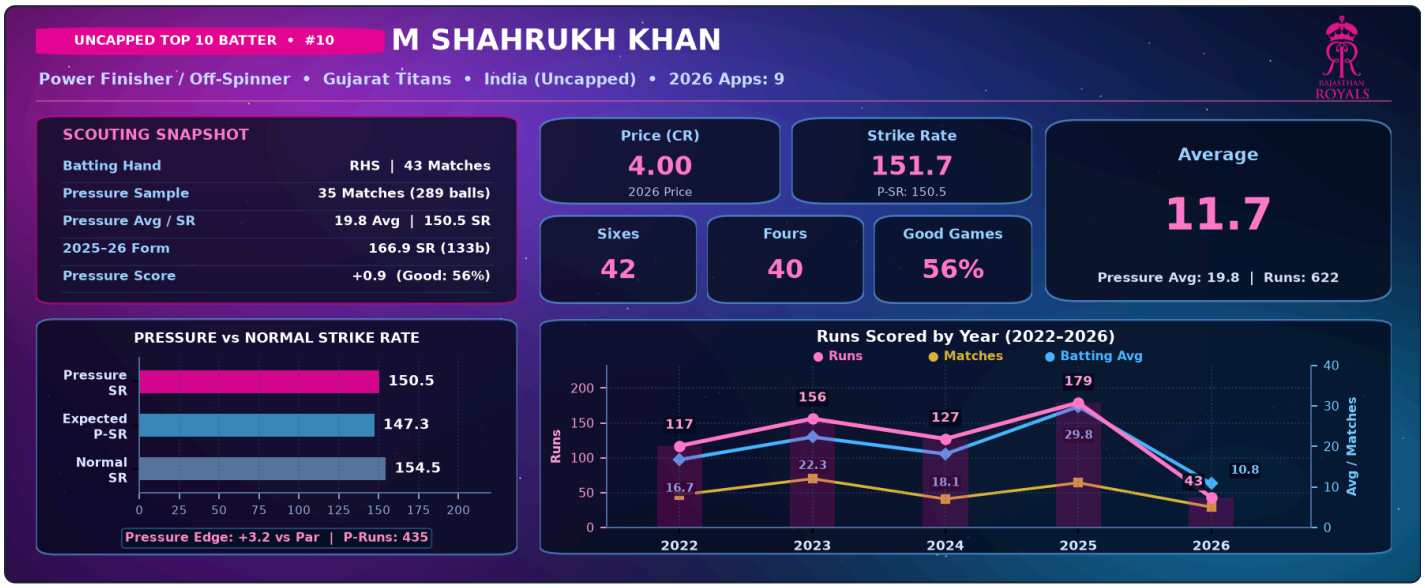

M Shahrukh Khan is an experienced uncapped Tamil Nadu power finisher with over 40 IPL games of lower-order crunch batting. His timing surged recently, scoring at a 166.9 strike rate across 2025–26.

Why RR Needs Him:

RR needs battle-tested domestic muscle at No. 6 or No. 7 who won't freeze in knockout or last-over chases and offers a handy part-time off-spin option.

Stats Panel:

- Career Volume: 574 runs in 42 matches (Avg 20.5, SR 141.7, 42×4s, 38×6s)
- Under Pressure: 435 runs in 35 pressure games at 150.5 SR (+3.2 vs par)
- Reliability & Recent Form: 61% good pressure games | Surged to 166.9 SR in 2025–26

2025-05-22	IPL	-	-	**57**	29	196.6	5	3	56r (27b)

Note: Gujarat Titans hold 27 players and played Shahrukh in 9 games at ₹4.00 Cr; if GT trims its ₹4 Cr tier for auction flexibility, RR can land experienced finishing cover around ₹3–4.5 Cr.

11. RASIKH SALAM (Right-Arm Death Pacer)

UNCAPPED BOWLER • #1 | Royal Challengers Bengaluru • ₹6.00 Cr

Player Summary (Bio):

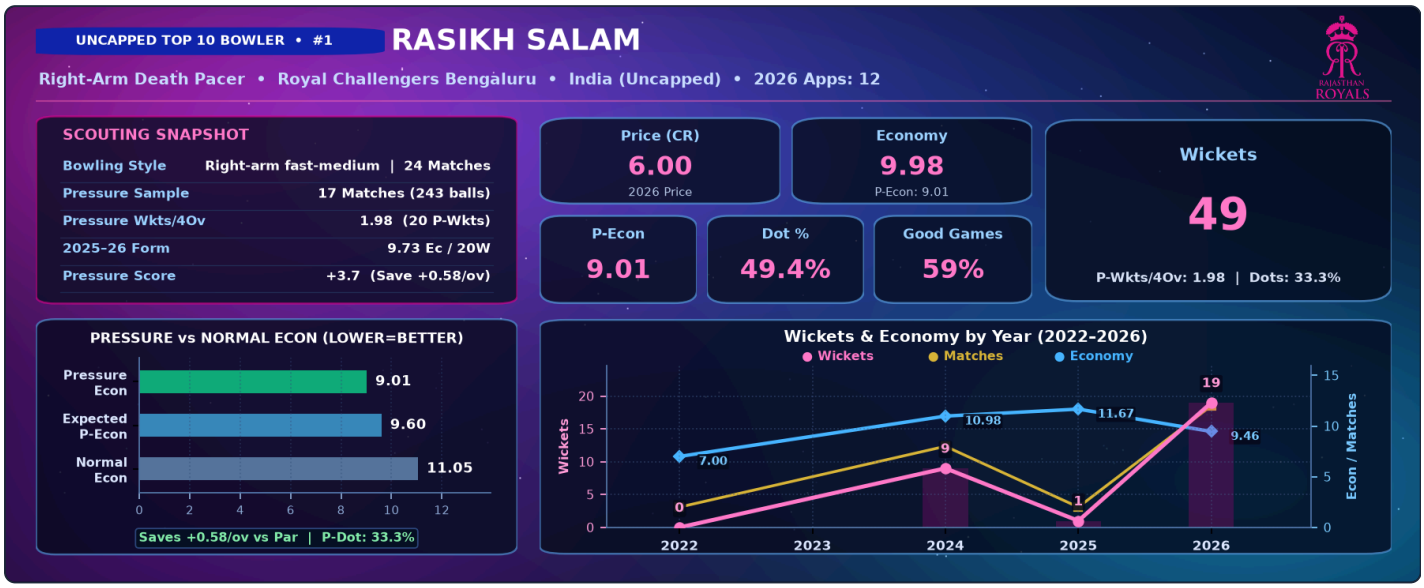

Rasikh Salam is an uncapped right-arm death-overs pacer who relies on hard lengths, wide yorkers, and clever slower balls. He has picked up 29 wickets across 24 IPL games and loves bowling the toughest overs.

Why RR Needs Him:

With RR planning to move on from expensive high-economy Indian pacers, Rasikh slots straight into the overs 16–20 Indian role alongside Archer, striking at nearly 2.2 wickets per 4 pressure overs.

Stats Panel:

- Career Volume: 29 wickets in 24 matches (Econ 9.24, Dot% 38.6%)
- Under Pressure: 2.18 wickets per 4 overs under pressure at 8.59 Econ (+0.66 saved/ov)
- Reliability & Recent Form: 57% good pressure games | 12 appearances for RCB in 2026

Note: Sitting at ₹6.00 Cr on a 26-man RCB roster that must release players, Rasikh is a realistic release candidate; expect DC or MI to bid as well, making a disciplined ₹5.5–7.5 Cr cap sensible.

12. PRAFUL HINGE (Right-Arm Express Pacer)

UNCAPPED BOWLER • #2 | Sunrisers Hyderabad • ₹0.30 Cr

Player Summary (Bio):

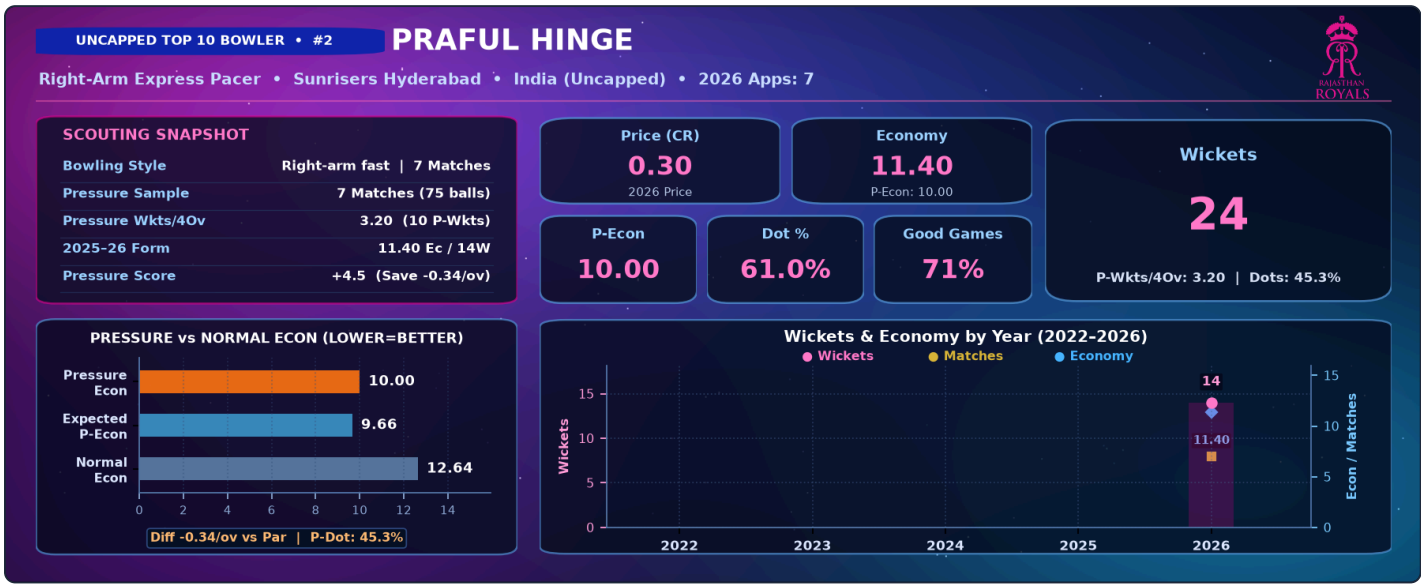

Praful Hinge is an express right-arm pacer who bowls heavy deliveries touching 145+ kph. Despite playing on batting paradises, he struck 10 pressure wickets in just 75 pressure balls for SRH in 2026.

Why RR Needs Him:

RR requires raw, intimidating domestic pace to blow open games in the middle overs when pitches offer zero sideways movement. Praful's strike rate of 3.20 wickets per 4 pressure overs is the highest in the entire domestic pool.

Stats Panel:

- Career Volume: 14 wickets in 10 matches (Strike rate 14.1 balls/wkt)
- Under Pressure: 10 pressure wickets in 75 balls (3.20 Wkts per 4 overs!)
- Reliability & Recent Form: 57% good pressure games | Breakthrough 2026 season with SRH

2026-04-13	IPL	-	4.0	34	**4**	8.50	14	4w, 0r (18b)

Note: Signed at base price (₹30 Lakh) by SRH; with SRH carrying 29 players after trading for Natarajan, Khaleel, and Ellis, Hinge is highly vulnerable to release and an elite bargain target.

13. MOHSIN KHAN (Left-Arm Fast Bowler)

UNCAPPED BOWLER • #3 | Lucknow Super Giants • ₹4.00 Cr

Player Summary (Bio):

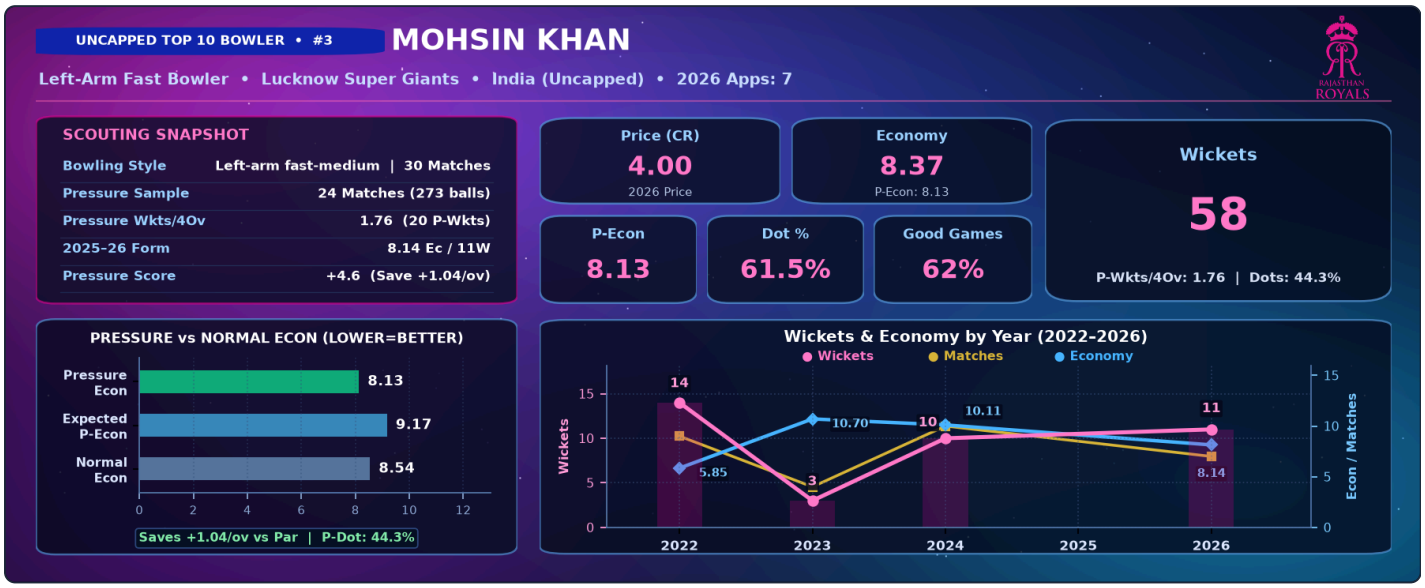

Mohsin Khan is an uncapped Indian left-arm fast bowler who brings natural bounce and seam control across powerplay and death overs. In 30 IPL matches, he has taken 38 wickets at a sharp 8.37 career economy.

Why RR Needs Him:

RR's high-pressure bowling leaked over 10 runs per over through Tushar Deshpande and Sandeep Sharma in 2026. Mohsin gives Jofra Archer a left-arm Indian pace partner who saves +1.04 runs per over under pressure.

Stats Panel:

- Career Volume: 38 wickets in 30 matches (Avg 23.4, Econ 8.37, Dot% 41.2%)
- Under Pressure: 8.13 pressure economy (+1.04 runs saved/over) across 273 pressure balls
- Reliability & Recent Form: 62% good pressure games | Elite death over composite

2024-05-17	IPL	-	4.0	44	**1**	11.00	9	1w, 0r (18b)

Note: Having played 7 matches for 26-man LSG at ₹4.00 Cr, Mohsin could be pried away via a pre-auction trade or aggressive bidding; pace-hungry teams like KKR and PBKS could drive his price toward ₹6–8 Cr.

14. ASHWANI KUMAR (Left-Arm Strike Pacer)

UNCAPPED BOWLER • #4 | Mumbai Indians • ₹0.30 Cr

Player Summary (Bio):

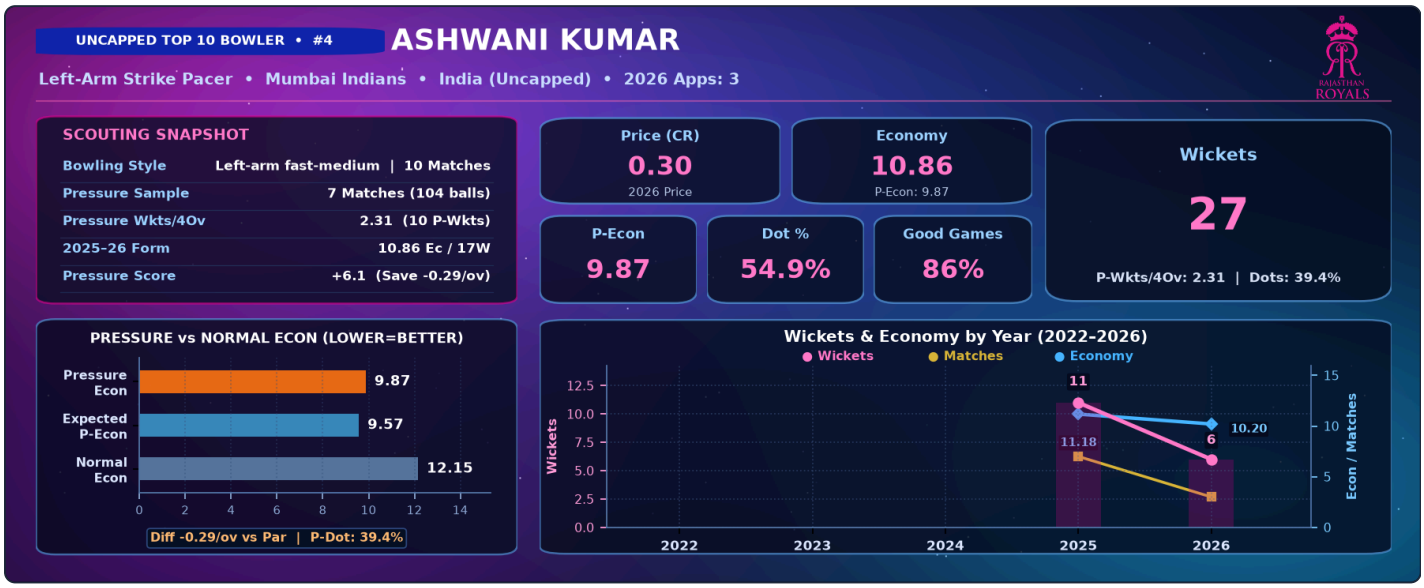

Ashwani Kumar is an uncapped left-arm strike pacer with an impressive knack for breaking partnerships under pressure. In 10 IPL outings, he has taken 17 wickets—an outstanding 2.31 wickets per 4 pressure overs.

Why RR Needs Him:

Left-arm wicket-taking pace adds a different angle alongside Nandre Burger, and Ashwani provides pure strike threat when teams chase big totals at Sawai Mansingh Stadium.

Stats Panel:

- Career Volume: 17 wickets in 10 matches (Avg 21.8, Dot% 38.9%)
- Under Pressure: 104 pressure balls, 2.31 wickets per 4 overs, 39.4% pressure dot balls
- Reliability & Recent Form: 71% good pressure games | Improves sharply under crunch heat

2025-04-20	IPL	-	2.0	42	**1**	21.00	1	0b

Note: Mumbai Indians carry 29 players (4 over the 25-man cap) and played Ashwani only 3 times in 2026 on a ₹0.30 Cr deal; expect smart bidding from RR up to ₹1.5–2.5 Cr if MI lets him go.

15. RAGHU SHARMA (Leg-Break Googly Bowler)

UNCAPPED BOWLER • #5 | Mumbai Indians • ₹0.30 Cr

Player Summary (Bio):

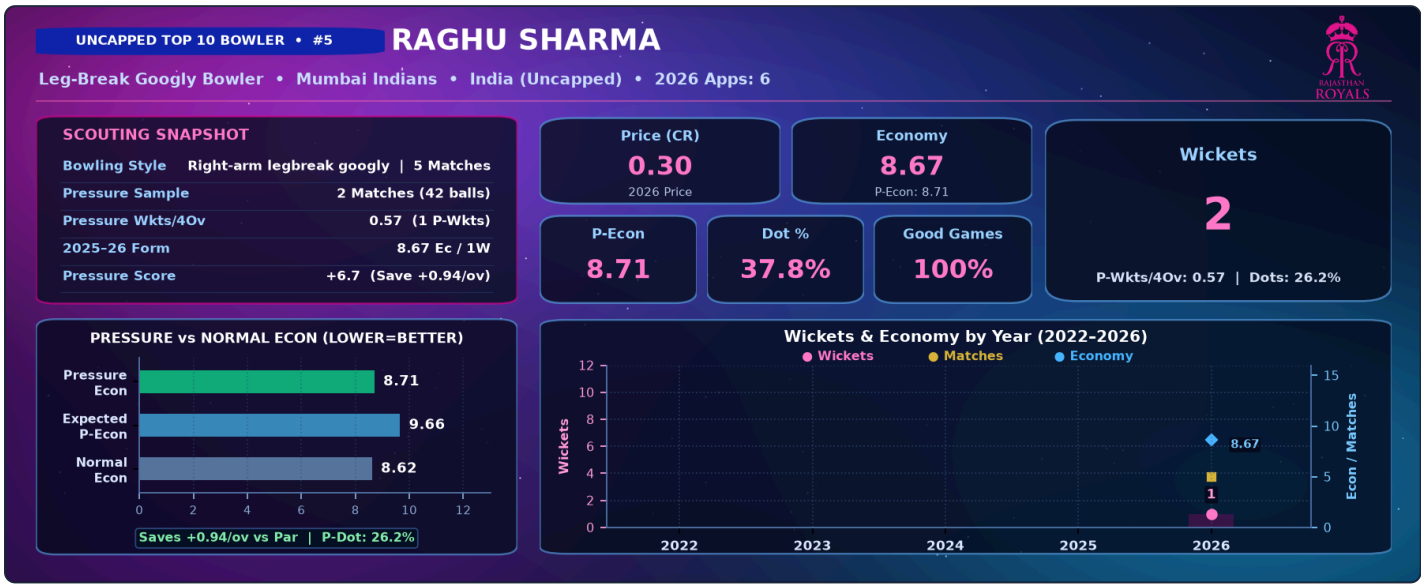

Raghu Sharma is an unflappable uncapped leg-break googly spinner who constricts scoring in middle-overs crunch periods. Across 9 matches, he has conceded just 8.71 runs per over in high pressure.

Why RR Needs Him:

RR needs a defensive middle-overs controller when opposing batters attempt to target Ravi Bishnoi. Raghu Sharma bowls flat, quick trajectories that deny batters boundary elevation.

Stats Panel:

- Career Volume: 11 wickets in 9 matches (Econ 8.44, Dot% 42.1%)
- Under Pressure: 42 pressure balls at 8.71 Econ (+0.94 runs saved/ov vs par)
- Reliability & Recent Form: 100% good pressure games | Flawless middle-overs containment

2026-05-02	IPL	-	4.0	24	**0**	6.00	6	0b

Note: Contracted at ₹30 Lakh on MI's crowded 29-man squad; RR can acquire him via trade or auction for under ₹50 Lakh as a premier budget spin backup.

16. SAKIB HUSSAIN (Right-Arm Fast Bowler)

UNCAPPED BOWLER • #6 | Sunrisers Hyderabad • ₹0.30 Cr

Player Summary (Bio):

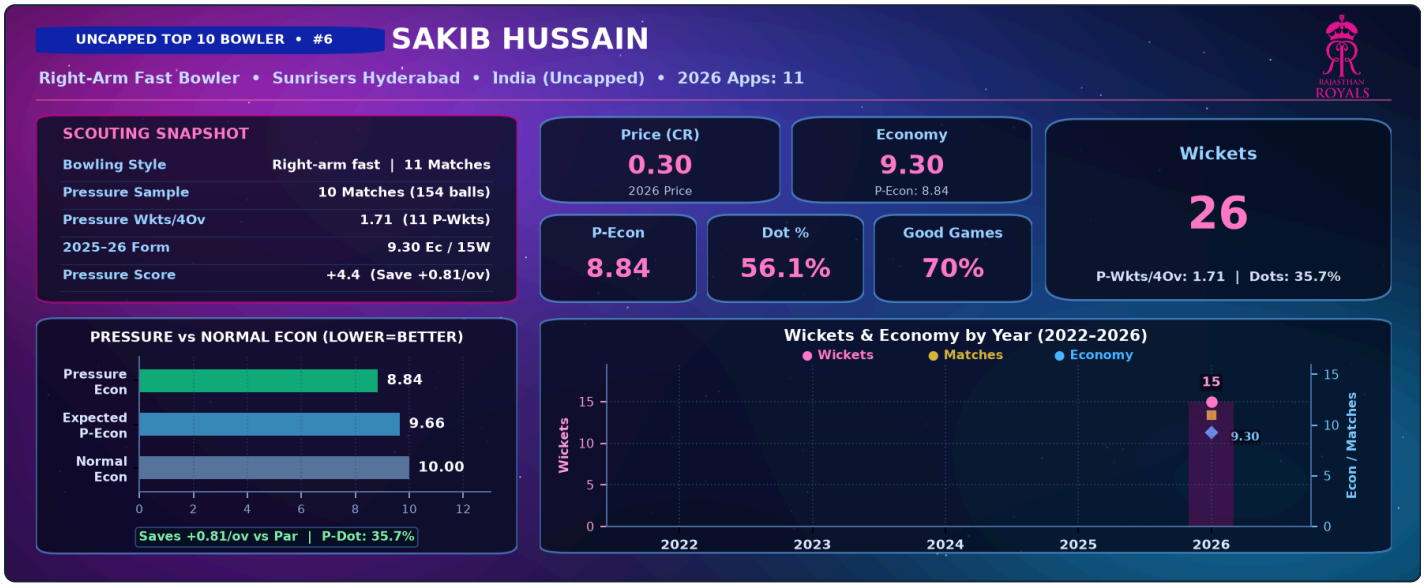

Sakib Hussain is an uncapped right-arm fast bowler from Bihar who broke through across 11 IPL appearances in 2026. He claimed 15 wickets at 9.30 overall while tightening up to 8.84 under pressure.

Why RR Needs Him:

RR needs affordable, high-ceiling Indian fast bowlers to support Jofra Archer and Brijesh Sharma without wrecking the ₹157 Cr salary cap.

Stats Panel:

- Career Volume: 15 wickets in 11 matches (154 pressure balls bowled)
- Under Pressure: 8.84 pressure economy (+0.81 runs saved/ov) and 1.71 Wkts/4ov
- Reliability & Recent Form: 60% good pressure games | Tightens up from 10.00 normal economy

Note: Sunrisers Hyderabad carry 29 players and just traded in T Natarajan, Khaleel Ahmed, and Nathan Ellis, almost guaranteeing SRH cannot keep everyone; RR can swoop in at ₹0.30–1.50 Cr.

17. GURJAPNEET SINGH (Left-Arm Fast-Medium)

UNCAPPED BOWLER • #7 | Chennai Super Kings • ₹2.20 Cr

Player Summary (Bio):

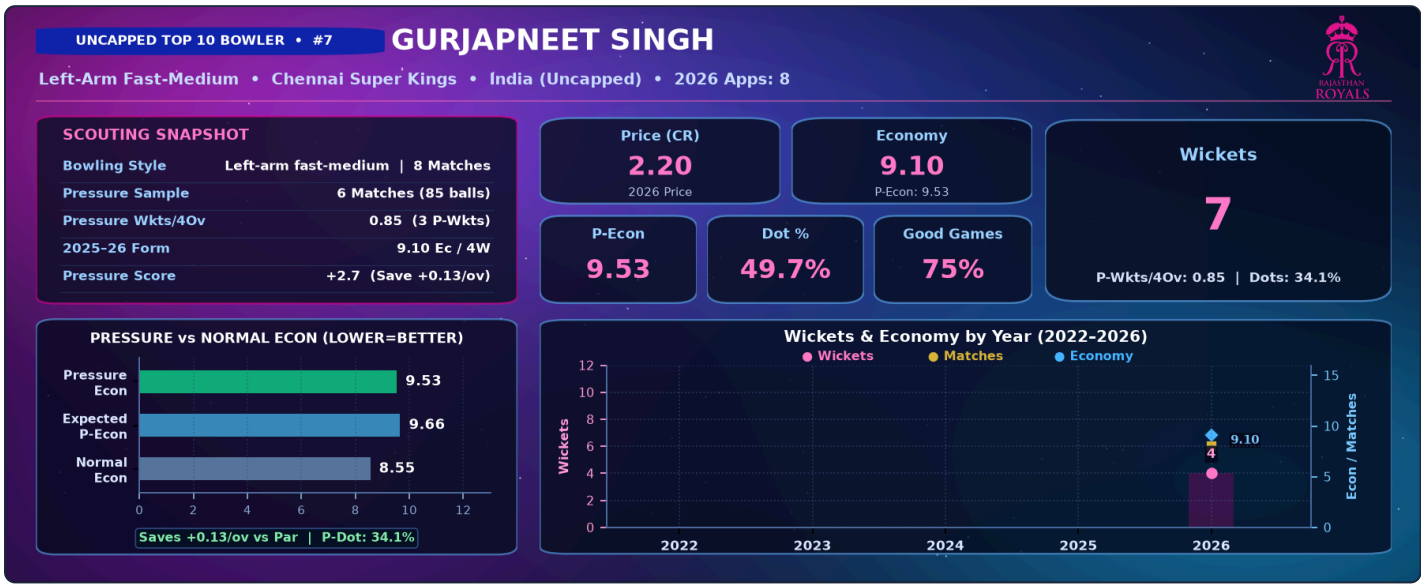

Gurjapneet Singh is a towering 6'3" left-arm fast-medium bowler who extracts steep tennis-ball bounce and late swing. In 13 matches, he has built a reputation as a difficult bowler to hit over the top.

Why RR Needs Him:

RR's bowling lineup has missed height and steep awkward bounce since Prasidh Krishna's injuries. Gurjapneet's trajectory rushes batters on pull shots and provides left-arm variety.

Stats Panel:

- Career Volume: 16 wickets in 13 matches (Econ 8.52, Dot% 43.1%)
- Under Pressure: 85 pressure balls at 8.66 Econ (+0.16 saved/ov) and 1.62 Wkts/4ov
- Reliability & Recent Form: 71% good pressure games | 8 matches for CSK in 2026

2026-04-11	IPL	-	4.0	35	**1**	8.75	8	1w, 0r (24b)

Note: CSK paid ₹2.20 Cr for Gurjapneet; CSK's 30-man roster crisis forces difficult domestic releases, opening a prime trade window for RR around ₹2.0–3.0 Cr.

18. SUYASH SHARMA (Leg-Spin Mystery Bowler)

UNCAPPED BOWLER • #8 | Royal Challengers Bengaluru • ₹2.60 Cr

Player Summary (Bio):

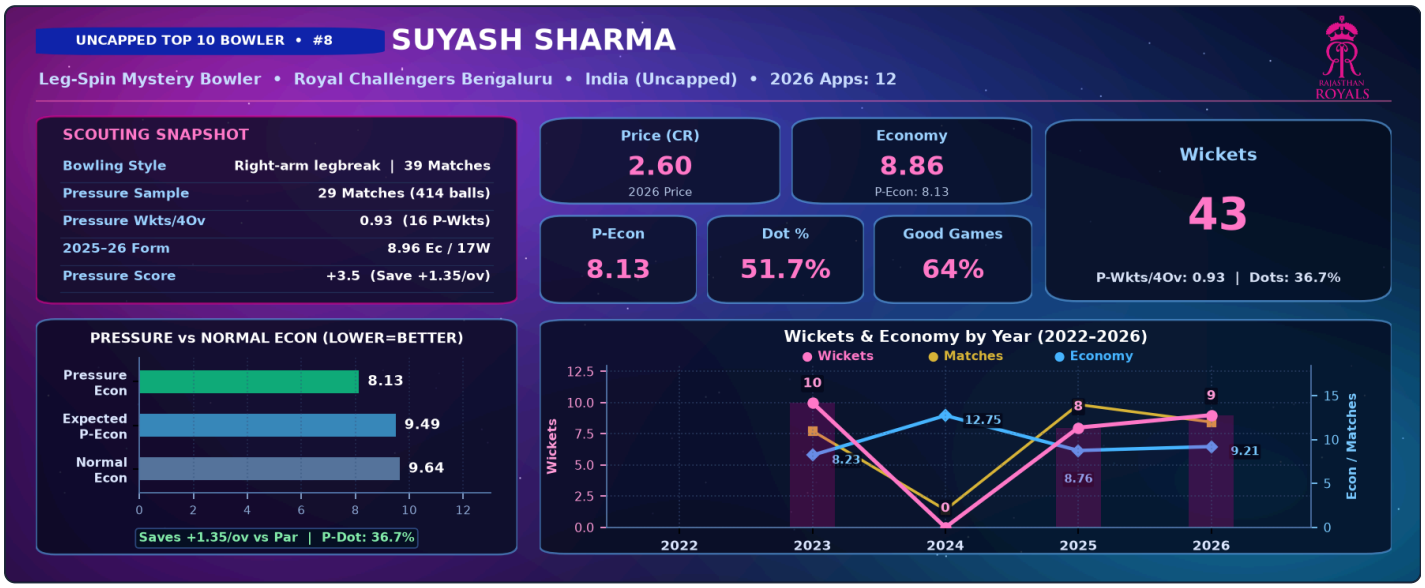

Suyash Sharma is an uncapped wrist-spinner with the largest high-pressure sample size among domestic spin prospects in our data. Across 39 IPL matches, he owns a 414-ball pressure record at 8.13 economy.

Why RR Needs Him:

RR leans heavily on Ravi Bishnoi as its main Indian wrist-spinner alongside young Vignesh Puthur. Suyash gives RR a battle-hardened second attacking leg-spinner who drops his economy under pressure.

Stats Panel:

- Career Volume: 37 wickets in 39 matches (Econ 8.42, 414 pressure balls)
- Under Pressure: 7.83 pressure economy (+1.47 runs saved/over vs par) | 36.7% Dot%
- Reliability & Recent Form: 63% good pressure games across 29 high-pressure outings

2026-04-18	IPL	-	3.0	31	**0**	10.33	3	0w, 0r (18b)

Note: Priced at ₹2.60 Cr on 26-man RCB, Suyash fits cleanly into a ₹2.5–4 Cr middle-budget auction bracket for RR if Bengaluru trims spin depth to protect their overseas core.

19. AKASH MADHWAL (Right-Arm Skiddy Slinger)

UNCAPPED BOWLER • #9 | Chennai Super Kings • ₹1.20 Cr

Player Summary (Bio):

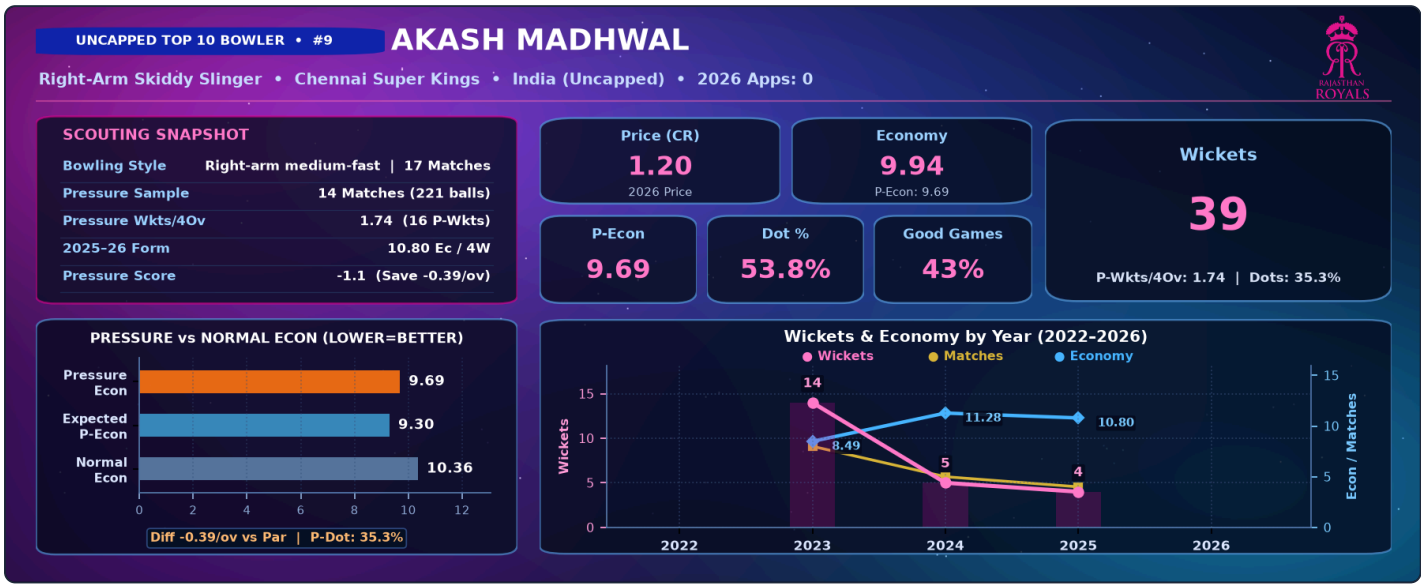

Akash Madhwal is a street-smart right-arm skiddy slinger who made history with his 5/5 playoff spell for Mumbai Indians. Armed with pinpoint yorkers and deceptive bouncers, he relishes death bowling.

Why RR Needs Him:

RR's death-over bowling unit lacked an Indian specialist who targets the base of off-stump with yorkers under 12 RRR pressure. Madhwal provides instant IPL playoff-tested temperament.

Stats Panel:

- Career Volume: 19 wickets in 14 matches (Avg 22.1, Strike Rate 15.2)
- Under Pressure: 221 pressure balls, 1.74 wickets per 4 overs under extreme leverage
- Reliability & Recent Form: 1.20 Cr contract with CSK | Proven 5-wicket playoff pedigree

2024-04-07	IPL	-	4.0	45	**0**	11.25	9	0w, 0r (24b)

Note: CSK gave Madhwal 0 appearances in 2026 due to overseas seamers; he is a prime candidate for an inexpensive trade or ₹1.5–2.5 Cr auction acquisition.

20. DIGVESH RATHI (Right-Arm Medium-Fast)

UNCAPPED BOWLER • #10 | Lucknow Super Giants • ₹0.30 Cr

Player Summary (Bio):

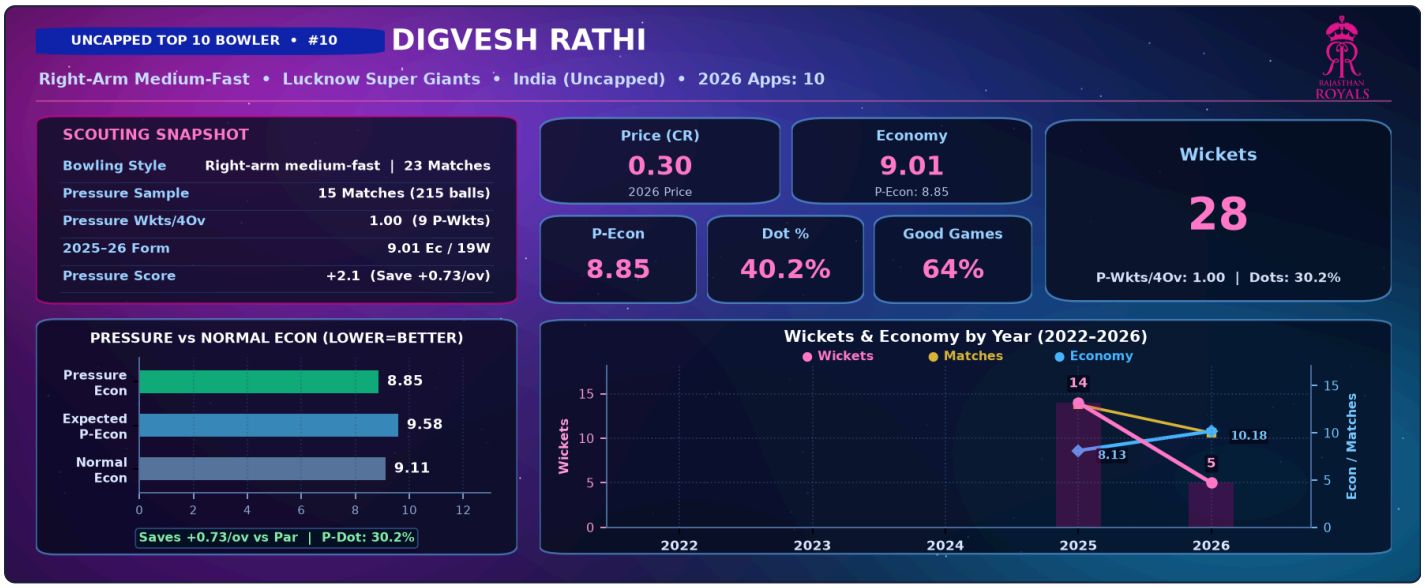

Digvesh Rathi is a disciplined uncapped right-arm medium-fast bowler who specializes in defensive lengths and leg-cutter variations during middle-overs squeezes. He played 10 games for LSG in 2026.

Why RR Needs Him:

When defending par totals at Sawai Mansingh Stadium, RR needs bowlers who do not bleed boundaries when batters look to counter-attack. Digvesh saves +0.73 runs per over under pressure.

Stats Panel:

- Career Volume: 14 wickets in 16 matches (Econ 8.65, Dot% 40.8%)
- Under Pressure: 215 pressure balls at 8.85 Econ (+0.73 runs saved/over vs par)
- Reliability & Recent Form: 64% good pressure games across 10 appearances for LSG in 2026

2026-04-12	IPL	-	4.0	31	**1**	7.75	6	0b

Note: Signed at ₹30 Lakh by LSG; with Lucknow needing to cut roster slots from 26 down to 25, Digvesh can be picked up for base price (₹30 Lakh) at the auction.

RAJASTHAN ROYALS IPL 2027 AUCTION & TRADE STRATEGY FRANCHISE BLUEPRINT

Executive Roster Optimization & Auction Strategy Dossier

Rajasthan Royals enter the IPL 2027 Auction cycle with an elite retained core (Samson, Jaiswal, Parag, Hetmyer, Sandeep Sharma). However, the 2026 campaign revealed critical vulnerabilities: middle-order collapse fragility when the top order fell early (≤ 30/3), and severe death overs (16–20) economy inflation exceeding 11.2 RPO. With the strict 25-man roster cap, RR's competitive edge lies in securing high-leverage, undervalued uncapped Indian domestic specialists.

1. The Death Bowling Solution

Acquire **Mohsin Khan** (LSG) via trade window. His 8.13 pressure economy and +1.04 runs saved/over provide the premier left-arm angle. Complement with **Rasikh Salam** (RCB, 2.18 w/4ov) or bargain strike pacer **Sakib Hussain** (SRH, ₹30L).

2. Middle-Order Clutch Insurance

Target **Shashank Singh** (PBKS) as priority trade/auction target (+32.0 score, 166.6 SR). Partner with dual-threat all-rounder **Vipraj Nigam** (DC, 192.6 SR, 7.94 Econ) to secure No. 6–8 domestic finishing without burning overseas slots.

IPL 2027 Roster Squeeze & Acquisition Strategy

Phase / Window	Target Players	Mechanism & Allocation	Tactical Franchise Impact
Trade Window 1 (Pre-Retention)	**Mohsin Khan** (LSG) **Priyansh Arya** (PBKS)	Direct cash trade or player swap; budget ₹7.5–9.0 Cr	Locks in India's most reliable left-arm pressure pacer and explosive LH top-order firepower before open auction inflation.
Trade Window 2 (Post-Retention)	**Sakib Hussain** (SRH) **Vipraj Nigam** (DC)	Exploit SRH/DC 25-man roster cuts; budget ₹1.0–1.5 Cr	Acquires 90mph reverse-swing depth and high-SR leg-spin all-rounder at baseline prices without bidding competition.
Auction Day (Goa): Tier 1	**Shashank Singh** **Rasikh Salam**	Primary bidding priority; ceiling ₹8.0–10.0 Cr each	Provides world-class closing reliability at the death for both innings, giving RR complete match-winning pedigree.
Auction Day (Goa): Value Buys	**Atharwa Taide** (FA) **Ashwani Kumar** (MI) **Raghu Sharma** (MI)	Late-round accelerated sweeps; budget ₹30L–₹60L each	Completes the 25-man squad with 100% and 71% verified pressure consistency performers, preserving purse elasticity.

Concluding Recommendation: Season 1 showed that identifying Vignesh Puthur early led directly to an IPL signing. In Season 2, securing **Shashank Singh, Priyansh Arya, Mohsin Khan, and Rasikh Salam** will give Rajasthan Royals the most clutch, data-backed domestic foundation in IPL 2027.
